Ok, let me put it together and you can see if that's what you want.

Can you put together a table that shows the perimeter monitoring done. I will need it for Monday evening. It should show the following: Date, Time, Location, Result - VOCs, H2S, . Ultimately, we should have a table of all monitoring but it should be broken down by a tab in excel by Perimeter, Headspace, etc.

Thanks

I'll look at it in the morning and let you know.

Have a great weekend!

Daniel:

I have reviewed the 1900-55's:

Removal: The backup for Rebecca shows Data Management for 2/13/15. Is this correct? It appears that you may have split her hours between the Removal and Assessment. See Clarification Below. Didn't she help you pull samples? Also, there is no comment on the 1900-55 for her hours but just on the backup.

Assessment: The backup for Rebecca shows Data Management for 2/13/15. Is this correct? It appears that you may have split her hours between the Removal and Assessment. See Clarification Below. Also, I noticed that Sam Cheek charged 0,5 hrs on 2/11/15. A comment in the 1900-55 says Health and Safety but the backup is blank. Can you confirm what he did for you?

Clarification: Any samples taken that are to be used primarily for disposal purposes, the labor etc should be charged to the Removal Action. We completed our assessment activities following the completion of the hazcat/compatability activities. I hope I did not give you the wrong direction.

Lets discuss further on Monday.

Thanks
